

OFFICE BUILDING

Varco Pruden is the choice for flexible,
affordable, quality building solutions

VARCO  PRUDEN™

Building Solutions. Together.™

YOUR OFFICE BUILDING SOURCE

Right now, the world's next great innovation is an idea being brainstormed in an office building. From corporate headquarters to remote service offices, our building systems provide offices that are cost-effective to build, economical to maintain and energy-efficient to operate. Flexible designs with efficient floor plans, attractive architectural appeal and optimized usable space are a perfect fit for your next professional or medical office. Our coast-to-coast network of nearly 1,000 independent authorized builders work as a team to provide a high-quality facility, on time, and on budget.

Our Expertise

Banks and financial institutions, medical providers, technology and services—the vital things that keep our community thriving take place in an office. Varco Pruden has more than 70 years of experience in building offices that meet developer's and owner's needs, and we're proud to partner with you in strengthening infrastructure. Leading the charge in construction innovation, we have the products, technology, and experience you need to create better buildings that last longer and perform better. Varco Pruden, a pioneer in the steel framed building industry, can offer you:

- Lower material and labor costs with faster completion schedules
- Energy-efficient and sustainable construction materials
- Flexible designs for interior space
- Choices of exteriors such as brick, stucco, glass, wood or steel

Project Highlight

Baker Hughes Joint Facility Administration Building

This 21,000 sq. ft. office building maximized and created energy efficiency with:

- Deck-Frame
- Continuous Beam
- SLR™ Roof System
